## ACCEPTABLE USE POLICY (AUP) FOR ELECTRONIC INFORMATION SERVICES (EIS) AND COMPUTER USAGE AT ATLANTIC HIGH SCHOOL

The use of EIS can put new and exciting resources at the fingertips of both students and teachers. Due to the fundamental lack of restrictions on the Internet, parents, teachers and students should be aware that there is a possibility of accessing information that has not been screened by educators and that may not be consistent with other District policies. Individual users will be held responsible for their use of EIS. All students and their parents/guardians shall be required to sign and return an acceptable use agreement (AUP) provided by the school prior to using EIS.

1. The student is responsible for good behavior on the school computer system, just as they are in a classroom or a school hallway. School Board policy and school rules for behavior and communication apply.
2. The student shall use EIS for educational purposes only, and shall not access or attempt to access any materials that are inappropriate to the educational environment.
3. The student will not access or attempt to access information that is not authorized for student use.
4. Students are not permitted to use the EIS for commercial purposes, product advertising, political lobbying, or political campaigning.
5. Students are not permitted to create, transmit, receive, submit, or publish any defamatory, inaccurate, abusive, obscene, profane, sexually oriented, threatening, offensive, or illegal material.
6. Students will not use EIS to invade the privacy of others and shall not trespass into other students' or teachers' folders, work, or files without permission.
7. The student shall abide by all copyright laws and regulations.
8. The student shall not attempt to harm, modify, or destroy software/hardware or interfere with system security.
9. The student shall not introduce unauthorized software into the system.
10. Students shall print only when your teacher or media specialist gives you permission.
11. Students will notify a teacher, administrator or media specialist if equipment needs repair. Do not attempt to repair equipment yourself.

Ignoring these rules will result in a referral for computer vandalism, loss of computer usage, suspension from school, and/or restitution for repair and replacement of damaged equipment.
